

International® 9000i Series Walkaround

# THE TRUCKING BUSINESS IS NO JOY RIDE. OR IS IT?

International® 9000i Series trucks bring a whole new level of enjoyment to the business of trucking. With bold looks, outstanding reliability and durability, unmatched ride and comfort, and easy serviceability, these trucks are a pleasure to own, drive and maintain.

## Owner appeal.

- The sculpted hood, curved and sloped windshield, patented “pod” style air fairing, aero sunshade and mirrors, under-bumper aero valance panel and stylized chassis skirts deliver excellent aerodynamics/fuel efficiency. (International® 9200i and 9400i).
- Optimized components ensure superior reliability and uptime.
- The International 9000i Series cab and heat-treated alloy steel frame rails are designed to deliver longer life, less weight and fewer repairs.

The International® 9900i is a classic long-nose premium conventional that produces profits as well as stares. An extended front end gives the International® 9900i an extraordinary 130" (330 cm) BBC for a one-of-a-kind look and feel.

## Driver delights.

- Features like an ultra-rigid cab floor, premium-quality seating, tuned shock absorbers, cab air suspension (on sleeper models) and the International® Ride-Optimized Suspension (IROS) system deliver an exceptionally smooth and stable ride.
- Well-placed steps and V-shaped door handles offer easy entry/egress.

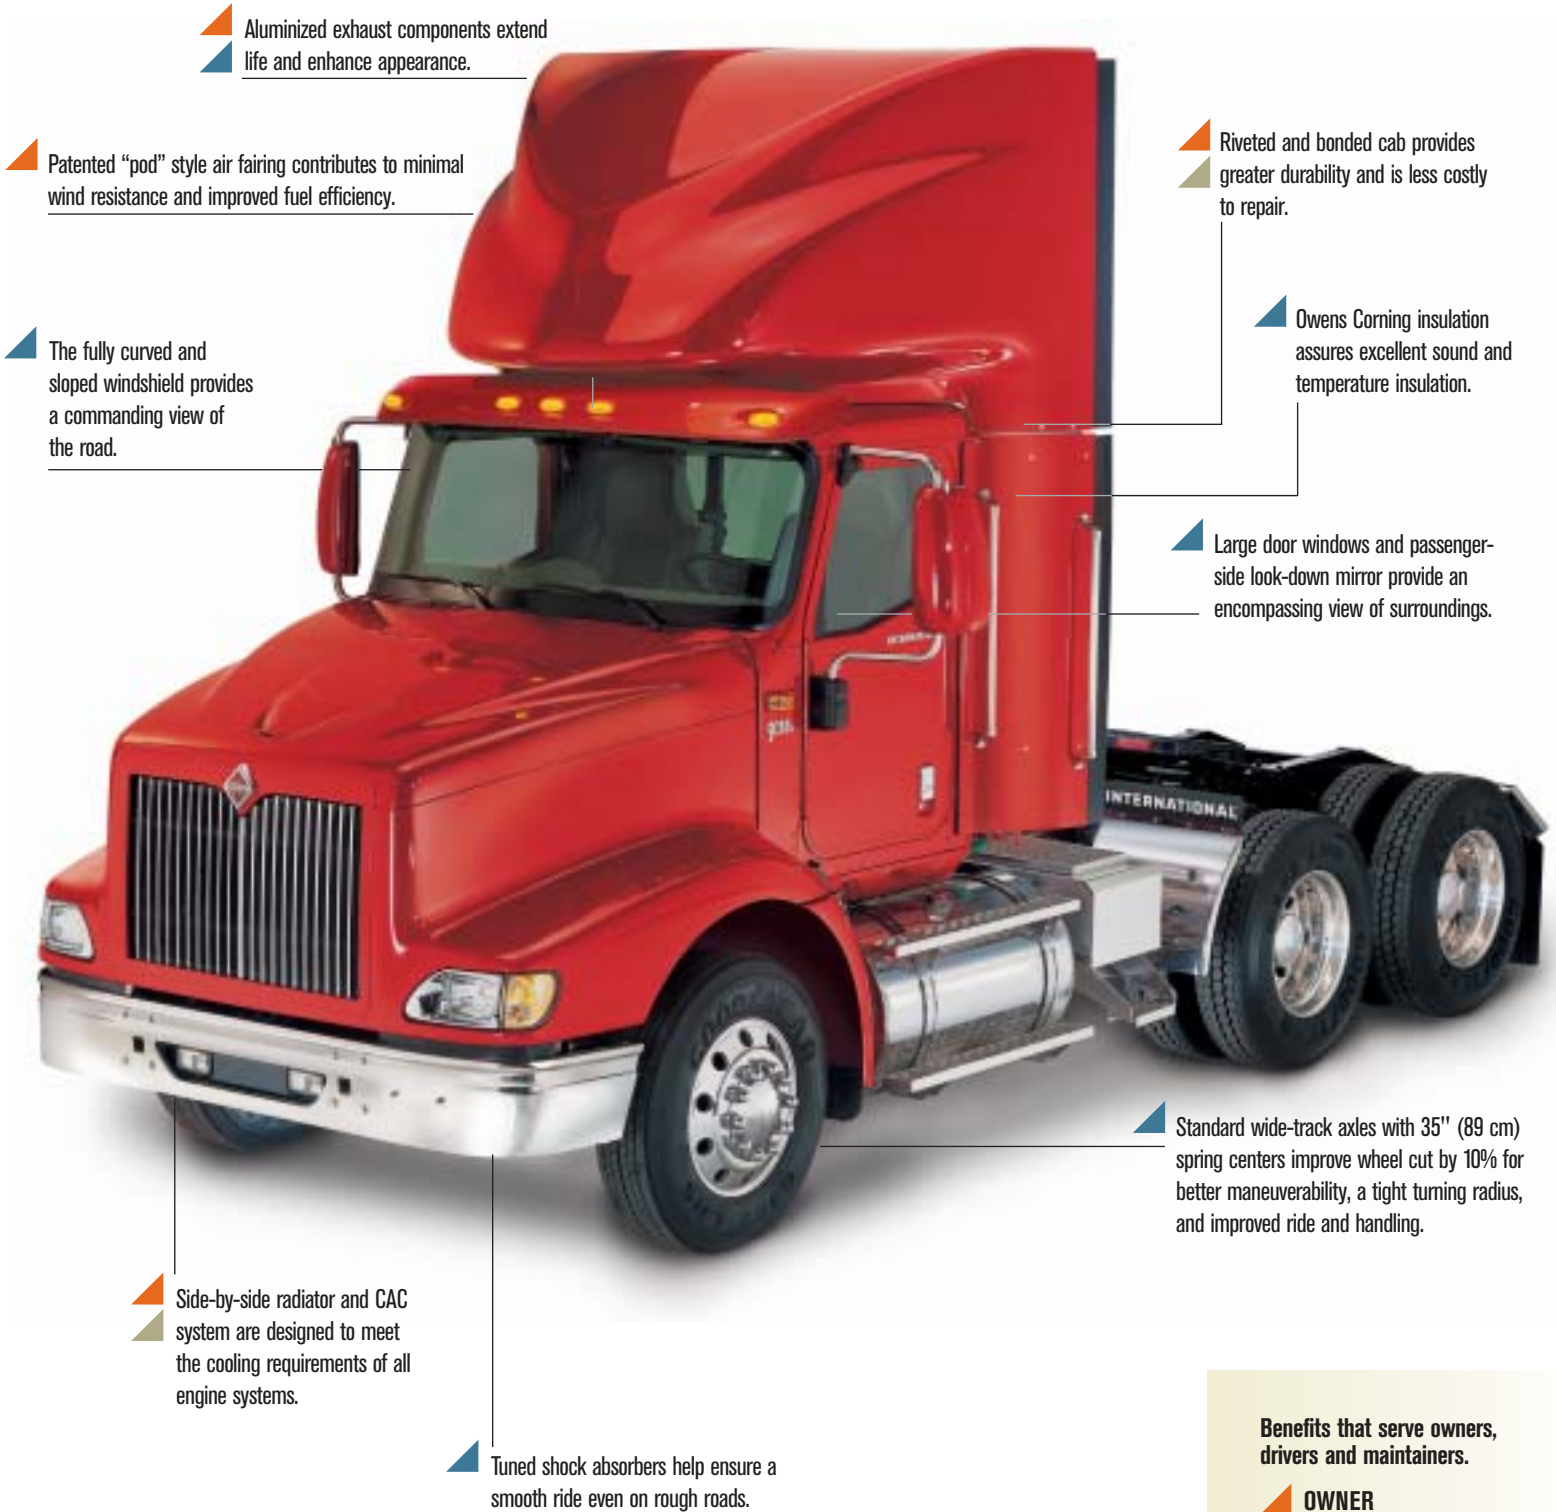

International® sleepers measure 96" (244 cm) across and provide incomparable roominess, storage space, comfort and convenience. Choices include the 51" (130 cm) Lo-Roof, 51" (130 cm) Hi-Rise, 72" (183 cm) Hi-Rise and 72" (183 cm) Sky-Rise®.

- Outstanding headroom, belly room and legroom ensure driver and passenger comfort.
- The best-in-class HVAC system increases airflow and efficiency. Electronic controls and lighted rotary knobs make it easier to control temperature, air volume and air distribution.

## Maintainer advantages.

- Easy access to air cleaner, windshield washer reservoir, oil check and fill, battery and other items make routine maintenance quick and easy.
- The HVAC system simplifies maintenance by eliminating the need for cable service adjustments and will automatically cycle the A/C compressor during winter months.
- The three-piece hood on the International 9200i and 9400i is easier and less expensive to repair than one-piece hoods.
- A self-diagnostic test is activated when the ignition key is turned, alerting drivers to potential problems.

# INTERNATIONAL® 9000i Series

Aluminized exhaust components extend life and enhance appearance.

Patented "pod" style air fairing contributes to minimal wind resistance and improved fuel efficiency.

The fully curved and sloped windshield provides a commanding view of the road.

Riveted and bonded cab provides greater durability and is less costly to repair.

Owens Corning insulation assures excellent sound and temperature insulation.

Large door windows and passenger-side look-down mirror provide an encompassing view of surroundings.

Standard wide-track axles with 35" (89 cm) spring centers improve wheel cut by 10% for better maneuverability, a tight turning radius, and improved ride and handling.

Side-by-side radiator and CAC system are designed to meet the cooling requirements of all engine systems.

Tuned shock absorbers help ensure a smooth ride even on rough roads.

Benefits that serve owners, drivers and maintainers.

- OWNER
- DRIVER
- MAINTAINER

- ▲ A multi-layer finish features a high-concentration color coat sealed with a clear urethane outer coat – for incomparably deep, rich color that looks factory new for years.
- ▲ An innovative flow-through aero sunshade keeps airflow unrestricted.
- ▲ Aero mirrors and breakaway C-loop door-mounted brackets reduce side-of-cab wind noise, improve fuel efficiency and reduce repair costs.
- ▲ The hood-tilt assist system and integral splash panels reduce hood-opening effort and provide easy access to under-hood service points.

- ▲ The easy-to-reach windshield washer reservoir holds more than two gallons (7.6 L) for longer refill intervals.
- ▲ A bright-finish aluminum grille with protective bug screen offers durability and a distinctive appearance. Chrome-plated grille surround, standard with Eagle® trim.
- ▲ Pinpoint steering geometry and parabolic taperleaf front suspension provide superior vehicle control and excellent ride and handling.
- ▲ All air lines are color-coded for easier troubleshooting. Quality Connect fittings provide greater resistance to air leaks.

- ▲ Heat-treated alloy steel (110,000 psi yield) frame rails accommodate wheel bases up to 240" (610 cm) without reinforcement.
- ▲ Our unique assembly process ensures unmatched chassis straightness – helping to create an outstanding ride, less tire wear and longer drivetrain life.
- ▲ An ultra-rigid cab floor offers a smoother, more comfortable ride.
- ▲ The International® Ride-Optimized Suspension (IROS) system delivers excellent stability and handling, less road noise and a smoother ride.
