

LOOKING TO EXTEND  
YOUR PROFIT POSSIBILITIES?  
REST EASY.

International® 8500 and 8600 models are the Industry's First High Performance Trucks™ for regional haul operations, delivering unmatched reliability and durability, low cost of operation, and increased driver productivity and satisfaction.

The extended cab option with available bunk takes performance one step further. With a comfortable

bunk and mattress, abundant storage space, excellent ventilation and a quieter low-vibration environment, the "day sleeper" can be used to extend routes and raise driver productivity.

And that means a better night's sleep for you.

# PERFORMING BETTER THAN THE REST STARTS WITH BETTER REST.

## EXTENDED CAB OPTION WITH AVAILABLE BUNK.

The 26" (66 cm) extended cab (133" [338 cm] BBC) option can be spec'd with an available bunk.

The one-piece roof cap and +/- 1-mm construction tolerance assure superior fit and finish. The result: a tight, solid, quiet and comfortable environment.

Over 9 cubic feet of usable storage space under the mattress tray keeps belongings and other items neatly and securely out of the way.

A 72 1/2"L x 26"W (184 cm x 66 cm) (D.O.T. legal) x 5"-thick foam mattress provides the comfort of a full-size sleeper.

The bunk lifts up a full 75° with only 20 lb of effort for quick and easy access to the storage area.

Air-ride cab suspension provides an extraordinarily smooth ride – reducing vibration and cushioning the cab and passengers from the road.

Swing-out side windows in the bunk area provide additional ventilation for added comfort.

For more information on the International® 8500 and 8600 with extended cab and sleeper, call 1-800-44-TRUCK (1-800-448-7825), see your International dealer or visit our web site at [www.internationaldelivers.com](http://www.internationaldelivers.com).
